- ✔ ReactJS / NextJS
- ✔ NodeJS / ExpressJS
- ✔ Python
- ✔ Git / Github
- ✔ Socket.io
- ✔ Bootstrap / Tailwind
- ✔ Firebase

INTERNSHIPS

BATTLE OF BRAINS 🔗

Frontend Web Developer | August - October, 2021

- Developed a web-based multiplayer board game enabling multiple players to join and participate in teams.
- Translated **high-fidelity designs** into responsive front-end using **ReactJS** and **Bootstrap**.
- Established **API** endpoints and integrated **Web Sockets** for seamless communication between the frontend and backend.
- Played a pivotal role in constructing the server using **ExpressJS** and contributed to shaping key aspects of the game logic.
- Successfully **deployed** the project's frontend and server on **Vercel/Heroku** for optimal accessibility and performance.

RELEVANT PROJECTS

THE DUKAANDAR STORE 🔗

An aesthetically pleasing e-commerce website, meticulously crafted using **ReactJS**, **Bootstrap**, **Firebase Google Authentication**, and **JSON** integration, seamlessly navigated with **React Router**. This website offers an array of features, including a user-friendly **search bar**, a seamlessly integrated **cart** system, and elegantly designed product search and display pages that provide an exceptional shopping experience.

ASTROMINIA - CHROME EXTENSION 🔗

Every time you open a new tab in your **Chrome** browser, you're greeted with a fresh image and an inspiring quote sourced from NASA's **API** for captivating visuals and a Quotes **API** for thought-provoking wisdom.

EDUCATION

2019 - 2023 | Babu Banarsi Das Institute of Technology & Management
Bachelor of Technology - Computer Science & Engineering
